- Investigate a novel idea or presentation of existing information relevant to the practice of EMS

### **Objectives/ Expected Learning Outcomes**

- Produce a blog post of professional quality to be shared with peers
- Utilize technology to share experience and expertise with others in the EMS community
- Organize thoughts in a coherent manner that allows for ease of reading/ viewing and digestion of new information

### **Pre-requisites**

This Activity is available to all EMS providers, no further prerequisites are required.

### **Criteria for Selecting Faculty**

As with all Rykerr Medical CE Activities, the Blog Activity is categorized as an F4 activity per CAPCE S&R in which the participant(s) take(s) the initiative to direct learning in a way best suited to their needs and the general expectations outlined here. That said, the Program Committee is available to both offer feedback and evaluate performance. In addition, Content Reviewers outside of the Program Committee can assist in this capacity. In the event that a member of the Working Group (composed of the Program Committee and Content Reviewers) is a subject matter expert or has a specific interest in the topic of the Activity, the Program Committee will directly seek his or her input when evaluating the Activity.
